

# **AB 1504 California Forest Ecosystem and Harvested Wood Product Carbon Inventory: 2006 – 2015**

## **ERRATUM SHEET**

---

*Glenn A. Christensen, Andrew N. Gray & Olaf Kuegler  
U.S. Department of Agriculture, Forest Service, Pacific Northwest Research Station*

*Nadia A. Tase & Mark Rosenberg  
California Department of Forestry and Fire Protection, Fire and Resources Assessment Program*

*April 20<sup>th</sup>, 2018*

Prepared for:

Report completed through an agreement between the U.S. Forest Service (Agreement No. 14-FI-11052021-220) and California Department of Forestry and Fire Protection (Agreement No. 7CA02025)

*Suggested report citation:*

*In accordance with Federal law and U.S. Department of Agriculture policy, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age, or disability. (Not all prohibited bases apply to all programs.)*

To file a complaint alleging discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington DC 20250-9410 or call toll free voice (866) 632-9992, TDD (800)877-8339, or voice relay (866) 377-8642. USDA is an equal opportunity provider and employer.

## **Erratum sheet - AB 1504 CA Forest Ecosystem and HWP C Inventory: 2006-2015**

This erratum sheet serves to correct minor errors in the *AB 1504 California Forest Ecosystem and Harvested Wood Product Carbon Inventory: 2006 – 2015 FINAL REPORT* released in 2017 and posted on the California Board of Forestry and Fire Protection's website at:

[http://bof.fire.ca.gov/board\\_committees/ab\\_1504\\_process/](http://bof.fire.ca.gov/board_committees/ab_1504_process/)

### **1. Title page:**

Reference to the California Department of Forestry and Fire Protection agreement number should be amended to also reflect the U.S. Forest Service (USFS) agreement number. The following text is added in place of "California Department of Forestry and Fire Protection agreement no. 7CA02025":

*Report completed through an agreement between the U.S. Forest Service (Agreement No. 14-FI-11052021-220) and California Department of Forestry and Fire Protection (Agreement No. 7CA02025)*

The 2015 report posted on the Board of Forestry and Fire Protection's website has been updated with this information.

### **2. Second title page:**

Suggested report citation should reflect USFS agreement number. Revise to:

Christensen, G.A.; Gray, A.N.; Kuegler, O.; Tase, N.A.; Rosenberg. M. 2017. AB 1504 California Forest Ecosystem and Harvested Wood Product Carbon Inventory: 2006 - 2015. Final Report. U.S. Forest Service agreement no. 14-FI-11052021-220 and California Department of Forestry and Fire Protection agreement no. 7CA02025. Sacramento, CA: California Department of Forestry and Fire Protection and California Board of Forestry and Fire Protection. 390 p.

The 2015 report posted on the Board of Forestry and Fire Protection's website has been updated with this information.

### **3. Second title page:**

Non-discrimination clause added per requirement of the U.S. Forest Service:

*In accordance with Federal law and U.S. Department of Agriculture policy, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age, or disability. (Not all prohibited bases apply to all programs.)*

To file a complaint alleging discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington DC 20250-9410 or call toll free voice (866) 632-9992, TDD (800)877-8339, or voice relay (866) 377-8642. USDA is an equal opportunity provider and employer.

The 2015 report posted on the Board of Forestry and Fire Protection's website has been updated with this information.

**4. P. 3: Average net annual forest carbon dioxide sequestration – by owner:**

The 4<sup>th</sup> bullet states that “State and local governments contribute 2.6% of the statewide annual flux at a rate of  $2.6 \pm 0.96$  MMT CO<sub>2</sub>e per year (figure 4.1).” The statewide annual flux value of 2.6% should be corrected to 8.0%.

**5. P. 4: Average net annual forest carbon dioxide sequestration – by owner:**

The 8<sup>th</sup> bullet states that, “The annual net rate of carbon sequestration per acre is greatest on timberland owned by private individuals at  $1.33 \pm 0.22$  metric tons of CO<sub>2</sub>e per acre per year (Figure 4.4, Table 4.4).”

This value is actually for all *forestland* for private individuals and is highest compared to the ownership categories depicted in Figure 4.4 and Table 4.4. However, the annual net per acre rate of sequestration on all forestland for state and local government is slightly higher at approximately  $2.01 \pm 0.79$  metric tons of CO<sub>2</sub>e per acre per year (see Erratum Appendix, Table B10).

**6. P. 5: Carbon stocks for forest land remaining forest land (FF) by owner:**

The 4<sup>th</sup> bullet states that “Approximately 62% of the forest carbon stores are found on unreserved timberland (273 MMT C, Figure 4.10).”

The value for unreserved timberland of 273 is actually the value for unreserved other forest land and should be corrected to 1,276 MMT C to reflect the correct value for unreserved timberland and represents approximately 62% of the carbon stores as listed. This correct value for unreserved timberland carbon stocks is correct in table 4.12.

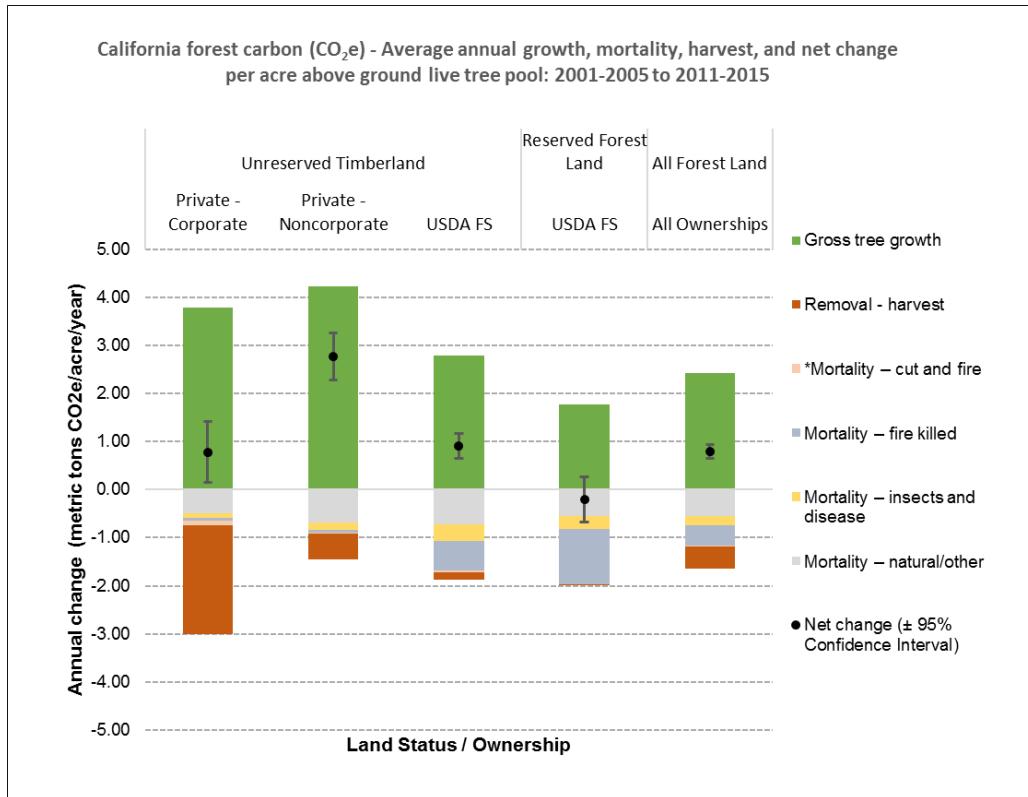

**7. P. 39 - Table 4.1:**

Sampling Error (SE) for “belowground dead” incorrectly entered as 0.02 instead of 0.2. Correct in appendix tables.

**8. P. 45 – Figure 4.4:**

Private corporate and non-corporate bars display unreserved forestland, not timberland as the figure is labelled. USDA FS values and All Forest Land values correctly show timberland.

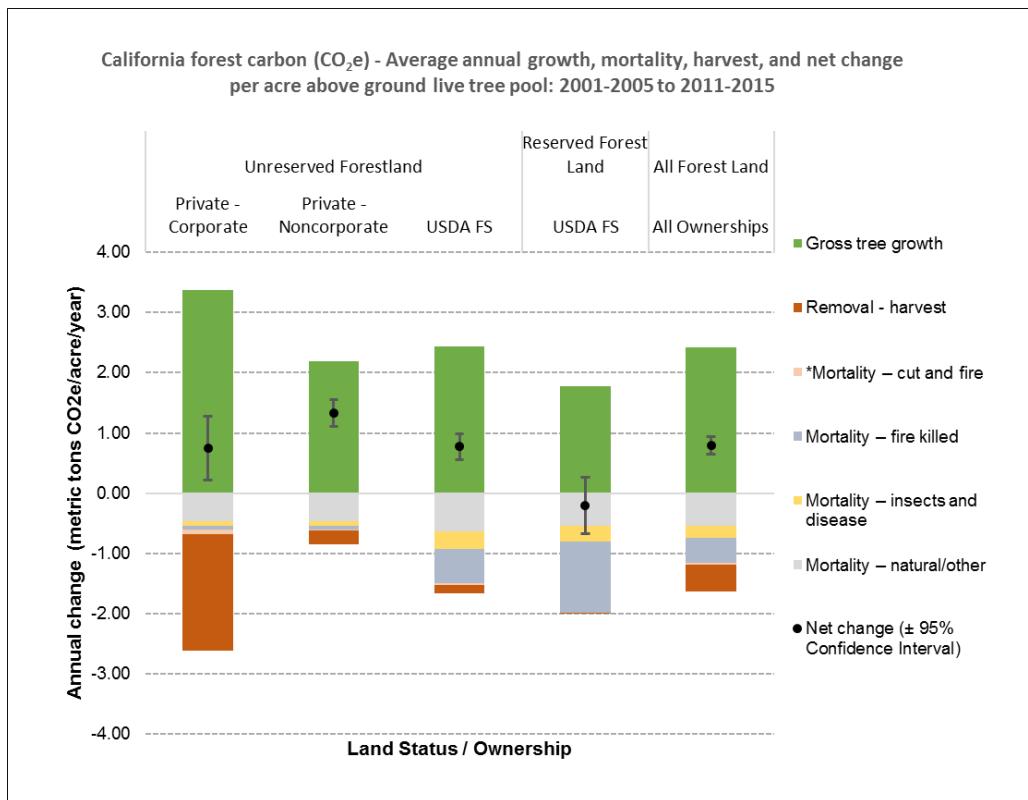

**Correct figure to display unreserved timberland<sup>1</sup>:**

**Figure 4.4.** Average annual growth, mortality, harvest, and net change per acre in aboveground live tree carbon pool by ownership and land status of California's forests (MT CO<sub>2</sub>e/acre/year), 2001-2005 to 2011-2015. The "all ownerships" category includes all other state and federal agencies managing fewer overall acres of forest land in California. The error bars represent the 95% confidence interval of net change. Figure derived from Appendix 2, Table B10.

### **Correct figure to display unreserved forestland<sup>1</sup>:**

While the report figure is meant to display information for unreserved timberland, below is a figure depicting the correct data for unreserved forestland for comparison.

## 9. P. 46 – Table 4.4:

Values listed for National Forests are for unreserved timberland, not forestland as the table is labelled. Private corporate and non-corporate, USDA FS reserved and All Forest Land values correctly show forestland.

### Correct table to display unreserved timberland<sup>1</sup>:

**Table 4.4.** Average annual growth, mortality, harvest, and net change per acre in aboveground live tree carbon pool by ownership and land status of California's forests, 2001-2005 to 2011-2015. The "all ownerships" category includes all other state and federal agencies managing fewer overall acres of forest land in California. Table derived from Appendix 2, Table B10. Average annual net change totals for the aboveground live tree carbon pool by ownership and land status found in table 4.6.

	Unreserved Timberland			Reserved Forest Land	All Forest Land
	Private - Corporate	Private - Noncorporate	USDA FS	USDA FS	All Ownerships
	Metric tons CO <sub>2</sub> e/acre/year				
Gross tree growth	3.77	4.23	2.78	1.78	2.42
Removal - harvest	-2.26	-0.54	-0.16	-0.01	-0.45
Mortality – fire killed	-0.05	-0.06	-0.62	-1.17	-0.42
*Mortality – cut and fire	-0.1	-0.02	-0.04	0	-0.03
Mortality – insects and disease	-0.09	-0.15	-0.34	-0.26	-0.19
Mortality – natural/other	-0.5	-0.68	-0.72	-0.55	-0.55
Net change ( $\pm$ 95% Confidence Interval)	0.78	2.77	0.9	-0.2	0.79
95% CI	0.63	0.49	0.26	0.47	0.15

### Correct table to display unreserved forestland<sup>1</sup>:

While the report table is meant to display information for unreserved timberland, below is a figure depicting the correct data for unreserved forestland for comparison.

	Unreserved Forestland			Reserved Forest Land	All Forest Land
	Private - Corporate	Private - Noncorporate	USDA FS	USDA FS	All Ownerships
	Metric tons CO <sub>2</sub> e/acre/year				
Gross tree growth	3.37	2.19	2.43	1.78	2.42
Removal - harvest	-1.93	-0.23	-0.14	-0.01	-0.45
Mortality – fire killed	-0.05	-0.07	-0.57	-1.17	-0.42
*Mortality – cut and fire	-0.08	-0.01	-0.03	0	-0.03
Mortality – insects and disease	-0.09	-0.07	-0.30	-0.26	-0.19
Mortality – natural/other	-0.46	-0.47	-0.63	-0.55	-0.55
Net change ( $\pm$ 95% Confidence Interval)	0.75	1.33	0.77	-0.2	0.79
95% CI	0.53	0.22	0.22	0.47	0.15

## 10. Table addition:

New Appendix 2, Table B11 added to show net flux totals by ownership for timberland.<sup>1</sup> This table was not originally included in the report. See Erratum Appendix for new table.

**11. Table addition:**

New Appendix 2, Table B12 added to show net flux per acre by ownership for timberland.<sup>1</sup> This table was not originally included in the report. See Erratum Appendix for new table.

**12. P. 51, Table 4.6/Appendix 2, Table B9; also Appendix 2, Table B10**

“Other forest” category included reserved land status productivity site class 7 and unreserved site class 7. Reserved site class 7 was also in “reserved” category, so this productivity site class was double counted. These tables also omitted a separate category for lands with less than 25% disturbance.

A corrected Appendix 2, Table B9 and B10 is included with “other forest” including unreserved site class 7 only, as well as a category for lands with less than 25% disturbance.<sup>1</sup>

See Erratum Appendix for corrected tables.

**13. P. 68-69, Figure 4.12 and Table 4.21:**

Sampling errors are incorrect and lower than they should be. A corrected Table 4.21 is included, reflecting the correct sampling errors.<sup>1</sup>

Consequently, in figure 4.13 the 95% confidence intervals are lower than they should be. An updated figure is included, reflecting the correct confidence interval.

See Erratum Appendix for corrected table and figure.

**14. P. 70-71, Figure 4.13 and Table 4.22:**

In table 4.22, sampling errors are incorrect and lower than they should be. A corrected Table 4.22 is included, reflecting the correct sampling errors.<sup>1</sup>

Consequently, in figure 4.12 the 95% confidence intervals are lower than they should be. An updated figure is included, reflecting the correct confidence interval.

See Erratum Appendix for corrected table and figure.

**15. P. 73, Table 4.24:**

Table 4.24 summarizes aboveground live flux, but the table omitted flux associated with foliage. This value can be found in table 4.3 on p. 41. An updated table is included with flux from foliage.

See Erratum Appendix for corrected table.

**16. P. 81, Table 4.32:**

Table 4.32 is mislabeled and shows unreserved forestland values instead of timberland. A corrected Table 4.32 is included, reflecting the correct timberland values.<sup>1</sup>

See Erratum Appendix for corrected table.

**17. P. 82, Table 4.33:**

Table 4.33 is mislabeled and shows unreserved forestland values instead of timberland. A corrected Table 4.33 is included, reflecting the correct timberland values.<sup>1</sup>

See Erratum Appendix for corrected table.

**18. Appendix 1, Tables A1.1.1 to A1.7.1 and Figures A1.1.1 to A1.7.1**

In tables A1.1.1 to A1.7.1, sampling errors are incorrect and lower than they should be. Corrected tables are included to reflect correct sampling errors.<sup>1</sup>

Consequently, in figures A1.1.1 to A7.1.1 the 95% confidence intervals are lower than they should be. Updated figures are included, reflecting the correct confidence interval.

See Erratum Appendix for corrected tables and figures.

**19. Appendix 1, Tables A1.1.2 to A1.7.2 and Figures A1.1.2 to A1.7.2**

In tables A1.1.2 to A1.7.2 sampling errors are incorrect and lower than they should be. Corrected tables are included to reflect correct sampling errors.<sup>1</sup>

Consequently, in figures A1.1.2 to A7.1.2 the 95% confidence intervals are lower than they should be. Updated figures are included, reflecting the correct confidence interval.

See Erratum Appendix for corrected tables and figures.

**20. Appendix 2, Table C42**

Table C42 should have also included belowground understory vegetation carbon in addition to aboveground. See Erratum Appendix for corrected table.

---

<sup>1</sup>For the 2015 measurement year, 41 out of 536 forested plots intended to be measured that year were actually measured in 2016. Updated data provided in this erratum include those plots. Overall, the complete 10-year cycle consists of 5425 forested plots, therefore including these additional 41 plots changed some of the updated estimates only slightly from what was provided in the original 2015 report.

## 2015 Erratum Appendix
